

**IN THE CLAIMS:**

Please amend claims 30 and 38, as follows:

30. (Amended) A process of analyzing at least one characteristic of an external body portion of an individual and/or at least one product applied to the external body portion, the process comprising:

acquiring scanned image data according to the process of claim 1;  
displaying an image corresponding to the scanned image data; and  
viewing the displayed image to analyze said at least one characteristic.

38. (Amended) A process for recommending treatment for an external body portion, the process comprising:

analyzing at least one characteristic of an external body portion according to the process of claim 30;

determining a recommendation of at least one treatment for the external portion;  
and

providing the treatment recommendation so that the external portion of the individual may be treated according to the recommendation.

**REMARKS**

Applicants have made minor amendments to correct inadvertent typographical errors in the specification and in claims 30 and 38. The amendments to claims 30 and 38 do not change their scope. Claims 1-62 are pending.
